

A Smarter Way to Run Dermatology Clinical Trials

Apex Clinical Research Center (ACRC) is affiliated with Apex Skin, a network of 15 dermatology clinics across Northeast Ohio. We offer a high-performance, multi-site clinical trial solution designed specifically for dermatology. Our experienced research team ensures consistent processes across all locations—helping sponsors meet timelines and enrollment goals. With three dedicated, fully staffed research sites and a single point of contact, we streamline budgets, startups, and regulatory submissions. Our EMR-integrated tools allow us to quickly and accurately prescreen and identify eligible participants.

Each ACRC research site has fully dedicated research staff, and are equipped with on-site laboratory and pharmacy, private patient rooms, continuous temperature monitoring, safety equipment and supplies, secured storage, and private monitoring space. Our research team is highly experienced in routine patient care and protocol adherence, delivering reliable, high quality trial execution at every step.

What are the benefits of partnering with Apex Clinical Research Center?

- Dermatology network of over 45 dermatologist providers, collectively seeing over 20,000 patients per month - giving your protocol a jumpstart in recruitment.
- Rapid study start up timelines, frequently selected as a “priority site”
- Screening within 3 days of activation, plus a low screen failure rate.
- Data entry within 24 hours of visit.
- Meet or exceed enrollment goals across 90% of studies, including phase I and rare conditions.
- Best-in-class recruitment across all sites, powered by local relationships and digital outreach.
- Standardized SOPs across all research locations for consistency and compliance.
- Unified IT infrastructure, including CTMS and eReg platforms.
- Bilingual Staff.
- Successfully conducted trials across multiple dermatologic indications, including psoriasis, acne, eczema, rosacea, alopecia, and more.
