Clinical Leadership & Investigator Expertise

Experienced Investigators

- Board-certified dermatology principal investigators
- Experienced in Phase I-IV clinical trials
- Supported by dedicated sub-investigators
- Strong culture of compliance and oversight

Apex Clinical Research Center

Our Mission:

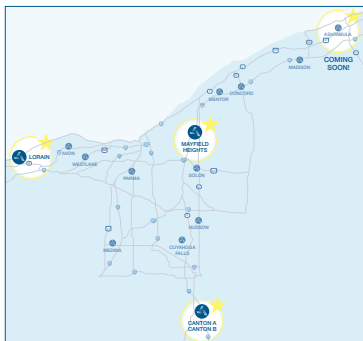

To deliver high-quality clinical data, accelerate dermatology innovation, and expand patient access to cutting-edge therapies by integrating rigorous research operations into a large, real-world community dermatology network.

Apex Clinical Research Snapshot:

- 3 dedicated research sites embedded within the large 15-clinic Apex Skin network
- 50+ dermatology providers, collectively treating over 250,000 patients, yearly.
- 250,000+ patient visits per year
- Centralized high-performing clinical research team
- Streamlined contracting and budgeting
- Efficient study initiation and accelerated patient enrollment
- Consistent, high-quality data collection
- A scalable research network with streamlined operations

What Sets Us Apart:

- Multi-site research capabilities
- On-site labs, pharmacy, monitored storage
- Experienced CRC, regulatory, and data staff
- Dermatology-specific expertise
- Centralized research & leadership team to ensure consistency
- Large and diverse dermatology patient population

Clinical Capabilities & Infrastructure

Research Infrastructure:

- Fully equipped exam rooms & private monitoring rooms
- On-site laboratory with processing & centrifugation
- Ambient, refrigerated, and frozen (-20°C and -70°C)
- Temperature-monitored investigational product storage & pharmacy services
- Secure, access-controlled research facilities
- Emergency response equipment, including AEDs

Operational Capabilities:

- Phase I-IV dermatology clinical trials
- Topical, oral, injectable, and IV investigational products
- Adult and pediatric study populations

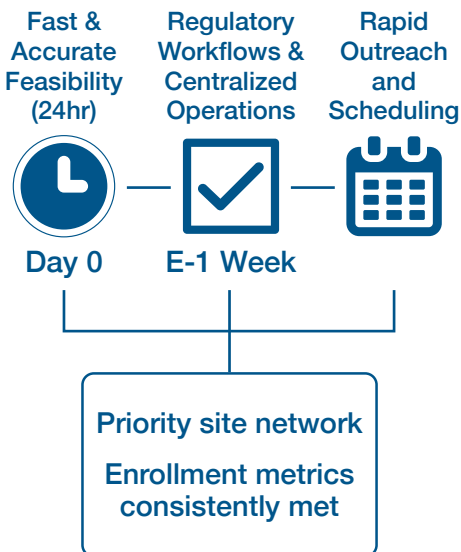

Full-Service Research Staffing:

- Principal Investigators and Sub-Investigators
- Clinical Research Coordinators
- Regulatory and compliance specialists
- Recruitment and patient engagement specialists
- Data entry and data management
- Lab and pharmacy technicians
- Dedicated Operations Manager with centralized leadership support

Dermatology Indications We Cover:

- Atopic Dermatitis
- Psoriasis
- Hidradenitis Suppurativa
- Vitiligo
- Alopecia Areata
- Acne and Rosacea
- Chronic Spontaneous Urticaria
- Prurigo Nodularis
- Palmoplantar Pustulosis
- Rare dermatologic disorders

Why Partner with Us

Simplified Multisite Management

Single point of contact for SOPs, budgets, contracts and regulatory.

Scalable, Diverse,
Community-Level Access:

Our community-based footprint supports efficient activation of one site or the full network while enabling recruitment across urban, suburban, and underserved communities, delivering diverse and representative patient populations.

Contact & Locations

Contact us to learn how Apex Clinical Research Center can support your next study while ensuring every patient is accounted for.

Apex Clinical Research Center Locations

Mayfield Heights

29111 Cedar Rd.
Mayfield Hts., OH 44124

Canton A

4124 Munson St., NW,
Canton, OH 44718
